Verse 1:

Bm A G D A
One step / I know my time will come / I'll have to take my place
Bm A G
There / It's staring me right in the face
A G
They're looking up to me and I don't know what they want to see

Chorus:

D G D A
I can be weak but I am strong / I am small but I am heard
Bm A G A D
They don't know what's going through my mind / I'll make it through the night

Verse 2:

Stop / Gotta slow all my thoughts down
Just trust myself and take off
There / I found what I had all along
It took that one small step to understand just who I am

Chorus

Bridge:

G D
When you're lost in time and there's no one you can turn to
G D
Just look to the skies and I'll be there right beside you
A G
If you find yourself at the hard side of a river
F#5 G A D
Just turn and look at those around and know that they believe in you

Chorus
